

TRIBUTE PAID TO SLAIN AMERICANS

THOUSANDS JOIN IN MEMORIAL- IZING THEIR HEROISM

**Most Impressive Funeral Pageant
Is Held for the 19 Bluejackets
and Marines Who Were Killed at
Vera Cruz—President Wilson
Voices Nation's Grief.**

NEW YORK, May 11.—More than 100,000 persons here joined the nation today in memorializing the heroism of the nineteen bluejackets and marines who gave their lives at Vera Cruz.

As the most impressive funeral pageant since the time of the Spanish war started on its solemn route from the Battery to the Brooklyn Navy Yard, it was as if the pulse of the city had temporarily stopped.

In the line of mourners that followed the artillery caissons bearing the dead were the chiefs of state and city government and many more distinguished men of nearly every calling; but every eye in the throngs that lined the way turned first to the carriage where President Wilson rode behind the last funeral car.

The president came from Washington during the night and was with the procession from the time it left the Battery until the squads of marines fired their parting volleys over the flag-draped coffins at the Brooklyn Navy Yard and the navy bugler sounded the "taps" that proclaimed the end of the ceremony.

President Deeply Touched.
On the stand with the president at the navy yard were relatives of the dead sailors and marines, mothers, sisters and wives, but in all the throng of mourners none seemed more deeply touched by the spirit of the day than the man whose word sent the lads of the navy to fight for their country's honor at Vera Cruz.

And to the president was left the privilege of voicing the nation's grief and the nation's belief that those who died in the performance of duty had done for their country a service not to be measured by their individual deeds.

"The feeling that is uppermost," he said, "is one of profound grief and yet there is mixed with that grief a profound pride that they should have gone as they did and if I may say it out of my heart, a touch of envy of those who were permitted so quietly, so nobly to do their duty."

The head of the nation looked out over the thousands massed around the coffins on the parade ground and his voice shook with emotion as he declared his creed:

"We have gone down to Mexico," he said, "to serve mankind if we can find out a way. We do not want to fight the Mexicans. We want to serve the Mexicans." There was a wistful note in his voice as he added:

"I never was under fire, but I fancy that there are some things just as hard to do as to go under fire. I fancy that it is just as hard to do your duty when men are sneering at you as when they are shooting at you. When they shoot at you they can only take your natural life; when they sneer at you they can wound your heart."

Dead are Landed Early.

The dead were landed by the tugs Traffic and Correction early in the morning and lay in state in the Battery Park plaza for over an hour before the procession started. There were sixteen caissons. The other two victims of Mexican piracy, honored today died after the Montana left Vera Cruz with the bodies of their comrades.

The police escort headed the funeral cortege and was followed by the naval battalions from the Wyoming and Texas. Then came the caissons with the bodies of the slain. Behind the caissons were the carriages of the president, Gov. Glynn, Secretary Daniels, Mayor Mitchell and other distinguished guests.

As the procession entered City Hall plaza, a throng of 500 children rose to meet them, singing, "Nearer, My God, to Thee."

Mayor Mitchell briefly eulogized the dead and laid upon one of the caissons a huge wreath symbolizing the city's appreciation of the service rendered at Vera Cruz.

In the naval parade ground less than 10,000 persons were able to back themselves into the enclosure and face the stand where stood the president with bare head. Mayor Mitchell was at his right and Secretary Daniels of the navy at his left.

President Wilson stood with head bowed. His deeply lined face showed the grief and solemnity of the moment.

He delivered his eulogy of the lead in a low, clear voice that carried to the farthest parts of the field. It was followed by a prayer by Rabbi Stephen S. Wise and a benediction by Dr. John P. Chadwick, chaplain of the old battle-ship Maine.

Three volleys fired by the marines across the consecrated dead, the final melody of taps and the funeral services were completed. They had lasted a little less than an hour.

During these brief exercises, the oppressive heat proved too much for several spectators who fainted and had to be carried away on stretchers. One marine was among them.

ALL PERSONS IN STRIKE DISTRICTS MAY BE SEARCHED FOR WEAPONS

After Five O'clock Tomorrow Afternoon Anyone Suspected of Carrying Arms Will Be Searched and Disarmed.

Trinidad, Colo., May 11.—After five o'clock Wednesday afternoon, all persons in the strike districts of Colorado who are suspected of carrying weapons will be searched and disarmed if weapons be found by United States troops.

This order was issued to all commanding officers today by Col. James Lockett, commanding forces here upon authority from the president. A proclamation to that effect was published which also informed the operators and strikers as to the operation of the mines.

The proclamation prohibited the operation of any mine which was closed as a direct and peaceable result of the order to strike issued by the United Mine Workers last September but will permit any mine which was in operation April 22nd, to continue operation with all the men who were in its employ on that date. This proclamation was received well by all factions particularly the strikers.

The work of peaceful disarmament by the military was continued but no official reports of the number of weapons received was made. Strikers were said to have surrendered fourteen guns.

Program Meets First Setback.

Denver, Colo., May 11.—The administration program met its first serious setback in the special session of the general assembly late today when the senate in committee of the whole killed the bill establishing a state constabulary. The house, however, passed the \$1,000,000 bond bill on third reading and also passed on third reading the senate bill authorizing the governor to close saloons in districts affected by riots. The last named is the first measure to be enacted by both houses.

The house bill authorizing the issue of \$1,000,000 in bonds for past and present expenses of the militia of the state was the center of a brisk fight when it was passed on second reading last week.

IOWA-WISCONSIN ELECTRICAL AND WIND STORM DESTRUCTIVE

Three Persons Are Killed at Madison—Storm Sweeps Through Central Iowa Doing Great Damage.

Madison, Wis., May 11.—Three persons were killed and four others seriously injured when the tail end of a tornado, originating in Iowa, today passed over Dane County. Farm buildings were wrecked and heavy damage was caused to crops. The victims were William East, of Westport; Mrs. A. Olson, Klevenville, and a four-year-old child.

Two Persons Injured.

Cherry Vale, Kaps., May 11.—Two persons were injured and several buildings destroyed in a storm here late today. Elmer C. McKnight and his sister, riding in a rural mail carrier's wagon, were badly bruised when a tree at the roadside was blown down killing their horse and crushing the wagon.

Many Farm Buildings Wrecked.

Spencer, Ia., May 11.—A small tornado passed north and northeast of this town late this afternoon. Barns and other outbuildings on many farms were wrecked and windmills blown down. Trains coming from both Spirit Lake and Estherville had to stop repeatedly to remove debris from the track. The property loss north of Dickens is large.

Great Damage to Vegetation.

Des Moines, Ia., May 11.—Reports from central Iowa today indicate thousands of dollars worth of damage to vegetation resulted from an electrical storm early today, said to have been the most violent here in recent years. In Des Moines, flooded basements and bursted sewers were evidence of the heavy fall of rain.

SETS ASIDE SENTENCES.

Washington, May 11.—Ending seven years of bitter legal warfare, the supreme court of the United States today set aside sentences imposed by the District of Columbia supreme court upon Samuel Gompers, John Mitchell and Frank Morris for contempt of court for the alleged violation of injunctions issued against boycotting the Bucks Stove and Range Co.

ISSUES SUPERSEDEAS.

Springfield, Ills., May 11.—Justice Vickers of the supreme court today issued a supersedeas in the case of John Peters, Jr., who was convicted at the January term of the St. Clair county circuit court on the charge of attempting to bribe state's attorney Charles Webb. Peters was charged with gambling by operating a slot machine in his saloon and was sentenced to an indeterminate term at Chester.

KNIGHTS OF COLUMBUS.

Schenectady, N. Y., May 11.—Hundreds of Knights of Columbus from all parts of New York have arrived in Schenectady to attend the annual state convention of the order, which began a three days' session today. Many of the visiting knights are accompanied by their wives and daughters. An extensive program of balls, receptions and automobile rides has been arranged for their entertainment.

BIG FIRE AT MANITO.

Peoria, May 11.—Fire originating in an explosion today burned a dozen business buildings and caused a loss of \$50,000 in the village of Manito near here.

ANTI-TRUST BILLS SHARPLY CRITICISED

RAILWAY MEN APPEAR BEFORE SENATE COMMITTEE

Assail Provisions Aimed at Interlocking Directorates, Stock Ownership by One Common Carrier of Another, and Delegation of Supervisory Power to Inter-State Commerce Committee of Future Issues of Securities.

MONDAY IN CONGRESS.

Met at noon.
District of Columbia taxation bill debated.

Representative Neely, West Virginia, introduced resolution to investigate judicial conduct of Alston G. Dayton, federal judge for Northern District, West Virginia.

Representative Walsh, New Jersey, introduced resolution appropriating \$20,000 for installation of electric voting device in house to reduce time of taking roll calls.

Judiciary sub-committee continued hearing of testimony regarding impeachment charges against Associate Justice Wright of District of Columbia supreme court.

Adjourned at 4:08 p. m., until noon Tuesday.

Senate.
Not in session, meets Tuesday at 11 a. m.

WASHINGTON, May 11.—Administration anti-trust bills were sharply criticised today before the senate inter-state commerce committee by representatives of 150,000 miles of railways.

The railwaymen assailed the provisions aimed at interlocking directors and stock ownership by one common carrier of another and against the proposed delegation of supervisory power to the inter-state commerce committee of future issues of securities. The witnesses were Judge Robert Scott Lovett, chairman of the Union Pacific board; Samuel Rea, president of the Pennsylvania; Frank Trumbull, chairman of the boards of the Chesapeake and Ohio and Missouri, Kansas & Texas railroads and A. P. Thom, general counsel in Washington of the Southern.

"It seems to me," said Mr. Trumbull, the concluding witness, "that you are burning down the barn to get a few rats."

Mr. Trumbull declared the railroads were anxious to conform to the law but that they were desirous of seeing the regulatory over them confined to a national commerce commission, or left entirely to state commissions. He favored a national commission.

"The railroads," said Mr. Trumbull, "have been working along national lines but the legislation has been along pronomial lines."

He added that the railroads had lost more than \$100,000,000 in the last nine months.

"But," said Senator Cummins, "many other corporations have lost proportionately more than this."

"Yes," replied the witness, "that may be right but that doesn't give us any credit."

Both Judge Lovett and Mr. Thom agreed that there was a general demand for legislation in some such form as was proposed. They agreed also, however, that the methods suggested in the senate bill for reaching interlocking directorates and stock ownership of competitive roads were not proper.

Judge Lovett declared that the senate bill aimed to make the corporation responsible for preventing interlocking and suggested that congress should, instead, make the individual director responsible. He coincided that Mr. Thom's view that as the bill stands a railroad might decide to go out of inter-state commerce instead of giving up interlocking directors.

Under the proposed law Judge Lovett said "the minority interstate in a road if dissatisfied might elect a director who was forbidden by this act and put a railroad out of business."

Judge Lovett attacked the house bill which would give the inter-state commerce committee supervision over security issues.

If there were no other consideration, he said, it should be sufficient to state that it would be physically impossible for the present commission or one with fifty members to exercise this power if it was done in the proper way. Mr. Trumbull and Mr. Thom objected strongly to the probation against common directors on railroads and financial institutions which has fiscal relations with such roads. Both asserted that European investors look to these bankers when making investments in American roads.

The committee expects to hold hearings tomorrow and Wednesday.

MOTHER AND DAUGHTER FACE MURDER CHARGE.

Chicago, May 11.—The unusual spectacle of a mother and daughter being arraigned for trial on a charge of first degree murder was furnished in Judge McDonald's court today. The accused were Mrs. Pasquella Porto and her 19 year old daughter, Erna. They are to be tried on a charge of having aided in killing Antonio Morasso, who was the daughter's former fiance. The killing occurred on April 29, 1913.

CITY COUNCIL ORDERS NEW LIGHT, DEPARTMENT BOILER

Changes to Be Made at Widenham & Daub Wells to Improve Flow—Ice Dealers Ordinance to Be Ready Soon.

At the Monday morning session of the city council a new boiler for the light plant was ordered purchased from Bernard Gause. Various matters of routine business were considered and work was begun upon the utility franchises which Mayor Davis said were ready for consideration. Before the day was over the railway franchise had been agreed upon and the reading of the gas franchise commenced.

Minutes were read and other formalities carried out.
Mr. Newman asked what was being done with the wheel tax collection and Mr. Knollenberg said that newspaper notice had been given that all vehicle owners who do not pay by May 15 will find the claims in the hands of the police department.

Object to Drainage Assessment.

Mr. Newman said that he was opposed to paying the assessment for the Mainville drainage district without a contest. He said that this amounted to something over \$500 and that he could not see that there would be any benefit accruing to the city. Mr. Knollenberg said that he understood that the embankment from the ditch would save the city about \$200 of levying work at the Widenham & Daub wells, and said too that to appeal the case would probably cost \$1200 or \$1400. Mayor Davis said that he didn't think it fair to assess the city for this work which would be a doubtful benefit and that he would be in favor of taking an appeal because he thought the city would be in the right even if it would be costly to fight the matter in court.

Mr. Engel said that he didn't know enough about the matter to vote in favor of a suit but he was willing to second a motion by Mr. Newman that the matter be referred to the city attorney to investigate and make a report and in this form the order was given by a unanimous vote.

City Attorney Thompson reported that he would have the ordinance relative to a license for ice dealers and in reference to the inspector of weights and measures ready at the next meeting.

When the department of health and safety was called Mr. Newman reported that Mrs. Gray is said to have 13 pigs at her West College avenue property. No action was taken.

Changes at Widenham & Daub Wells.

Mr. Brennan presented a plat of the pipe work underneath the Widenham & Daub wells. He made the point that the pipes were so connected that when certain wells were pumped that one worked against the other and did not therefore produce the volume of water which would otherwise come from the wells. He was authorized to make certain changes which is believed will not be costly and yet will greatly increase the flow of water.

Mr. Newman referring to the city dumping grounds said that Mrs. Collins claimed to own the driveway through which approach is made to the grounds and that his understanding was that the title to this property is in the city. City Engineer Henderson was instructed to make a survey of the land in order to arrive at the boundary lines of the several tracts which center there.

New Boiler Ordered.

A report on one of the boilers at the light plant by the Hartford Boiler Co. was read and Mr. Newman expressed the opinion that if the changes mentioned there were made that the city might for the present be relieved of the burden of buying a new boiler. Mr. Brennan made the point however that while the boiler repairs proper might cost but a few hundred dollars that to tear out all the brick work and replace it as would be necessary would cost somewhere from \$1200 to \$1500. He recommended that the Council purchase for \$2800 the boiler offered by Bernard Gause.

Mr. Knollenberg made a motion that this be done if Mr. Gause would accept payment next February without interest. Mr. Engel made a second to this motion and it was so ordered. Mr. Brennan also recommended that grades for the boiler be purchased from a firm in Keokuk, as he thought they were of a better type than that included in Mr. Gause's bid and Mr. Gause was willing to make proper reduction if the grades were omitted from his contract. This change was ordered.

A communication was read from Edw. Barton of the Illinois Water Survey offering his services to the Council at any time desired and the communication was received and placed on file.

MINERS RETURN TO WORK.

Peoria, Ills., May 11.—Three thousand miners returned to work in the Peoria sub-district this morning following the adoption of the new wage scale at a joint conference of mine workers and operators here Saturday. Probably 50,000 men are expected to resume work in the central and Southern districts of the state within the next week.

NEARLY 200 KILLED.

Catania, Sicily, May 11.—The official estimate of the dead in the recent earthquake which destroyed many villages on the eastern slope of Mount Etna places the number at close to 200.
This is said to be the largest percentage ever recorded, considering the smallness of the area affected by the disturbance.

SEVERAL NEW PHASES OF THE MEXICAN SITUATION

SECRETARY BRYAN CONFERS AT ARGENTINE LEGATION

Secretary of State Discusses Detention of American Vice Consul Silliman at Saltillo, the Seizure of Lobos Island by American Torpedo Boats, and the Case of the Five Men Under Arrest for Firing on U. S. Marines.

WASHINGTON, May 11.—While peace negotiations marked time pending formal sittings of the South American mediators to begin Monday on Canadian soil, the mediators and officials of the state department here today were occupied with several serious phases of the Mexican situation demanding immediate attention.

Secretary Bryan called at the Argentine legation late in the afternoon and spent two hours in conference with the Argentine ambassador, discussing the continued detention of John R. Silliman, American vice-consul at Saltillo by the Mexican federalists, the seizure of Lobos Island with its light house by American torpedo boats and the case of the five South Americans under arrest at Vera Cruz for firing upon United States sailors and marines.

Mr. Bryan insisted that the release of Silliman must be brought about about at once. When asked about the matter later he would not say what would happen if the vice-consul were kept in prison, but he was emphatic in announcing the government's determination to have him freed.

First official news of the landing of American sailors on Lobos Island reached the navy department late tonight. Rear Admiral Mayo called that the Mexican keepers deserted the great lighthouse on the island and the destroyer tender Dixie was maintaining it for the benefit of navigation.

While the Mexican representatives appointed by General Huerta to confer with the mediators were preparing to leave Vera Cruz the United States government officially announced its representatives in the mediation negotiations before the South American triumvirate at Niagara Falls, Ont., next Monday.

Justice Lamar, of the United States supreme court, and Frederick W. Lehman, former solicitor general, were chosen by President Wilson as the American representatives. From Huerta are hastening forward Augustin Rodriguez, Emilio Rabasa and Luis Elguero.

Ambassador DaGama, of Brazil; Minister Naon of Argentina and Minister Suarez, of Chile, the mediators, tonight expressed satisfaction in the election of the advisers for both governments.

Disturbing reports continued to arouse interest throughout the day. Gen. Funston at Vera Cruz was appealed to by the Brazilian minister at Mexico City to release some South Americans, including three Brazilians who had been arrested and are awaiting trial for "helping" American soldiers.

From Tampico, where the constitutionalists have been preparing for a sanguinary struggle, came rumblings of battle, while reports that Huerta's strength was waning in Mexico City and that the bandit leader Zapata was about to attack the capital from the south served to arouse diplomatic agents of foreign nations lest their people in Mexico City might be in immediate danger of persecution or death.

State department officials were indignant when it became known that Vice-Consul Silliman and his clerk, Joseph A. Marchant, as well as several other Americans had been prisoners of the federal commander at Saltillo. Late dispatches were accepted as indicating that the Mexican, French charge last week that neither Consul Silliman, or any member of the consular staff or any American in Saltillo "had been in danger" was intended only to deceive state department officials as to the real state of affairs at Saltillo.

HEARINGS ON TRADE COMMISSION BILL.

Washington, May 11.—For the purpose of ascertaining the opinions of the railroads and other large corporations on the administration interstate trade commission bill, the senate committee on interstate commerce began a series of public hearings in this city today. The bill would provide for a commission of five members which would be authorized to "investigate the organization, business financial condition, management and its relations to other corporations, of any corporation engaged in such commerce as can be regulated by the power to regulate under the constitution." The commission also would be empowered to require reports from any corporation, to make public the information thus obtained, and to recommend any legislation which it considered necessary to the public welfare.

MISSOURI G. A. R.

Sedalia, Mo., May 11.—Though the regular program of the G. A. R. state encampment does not begin until tomorrow many delegates and visitors have already arrived. The city is profusely decorated for the occasion. The gathering will continue two days and will include meetings of the Woman's Relief corps, Ladies of the G. A. R. and other organizations affiliated with the veterans.

OTIS SEES "NEWSPAPER OLIGARCHY" IN LICENSING OF NEWSPAPERMEN

Editor of Los Angeles Times Addresses National Newspaper Conference at University of Kansas.

Lawrence, Kans., May 11.—Legislation proposed to license newspapermen "would be to set up a newspaper oligarchy," General Harrison Gray Otis, editor of the Los Angeles California Times, asserted at the national newspaper conference at the University of Kansas tonight. General Otis said newspaper should not be regulated by law any further than to be required to obey the law, respect the courts and reverence the constitution.

"Competition finally will justify scrupulous competent writers and honest advertising men," declared Lewis Wiley, business manager of the New York Times, in discussing the question:

"Is not the public so dependent on the press for its social welfare that newspapers should be dealt with as public utilities?" "Show an intelligent citizen one instance where a newspaper has published a thoroughly truthful account of an event," said Mr. Wiley, "and another instance where a second paper has printed colored or inverted information and you will find the reader strongly in favor of the first newspaper."

CUP DEFENDER DEFIANCE LAUNCHED AT BATH, MAINE

BATH, Maine, May 11.—No Yankee clipper ever made her initial plunge into the sea with heartier cheers than followed the cup defense candidate Defiance as she slid into the Kennebec today.

Within an hour of launching, the second of the three American boats built this season had her mast on end and by the last of the week she will be ready for her workout.

The Defiance's lines are longer than those of the Resolute, which was launched two weeks ago but her bilges are fierier and her keel more extended. Her top sides are of polished mahogany and run up quite straight, but she has some sheer and a bow that is impressive.

THE WHIG MEETING OF 1840.

The afternoon session, beginning at 2:30 o'clock, was given over to a celebration of the famous Whig meeting in this city June 3-4, 1840. The story of the convention itself, the old soldiers' and young men's departments, was very ably told by Mrs. Isabel Jamison of this city, who is one of most ardent and best informed history students in the state society. (The Daughters of the American Revolution were special guests.)

Mrs. Edith P. Kelly, of Bloomington, told of the delegations from northern Illinois, and Mrs. Martha McNeill Davidson of Greenville gave an account of the representation from the southern section of the state.

The convention was said by all to be one of the noisiest and most demonstrative political gatherings in the history of the state or nation. The log cabin, hard cider and the corn shuck were mentioned as symbols of the Whig platform, which dealt with the tariff, Mormonism, banking, slavery and other issues.

William Henry Harrison was the candidate of the Whigs for president, a choice representing the culmination of a spirit of unrest upon well defined issues. It was for Harrison, who was sent to the presidential chair, that the Whig convention of 1840 in this city threw its influence.

Morgan county sent 1100 people under the lead of John J. Hardin and Richard Yates. The population of Morgan in 1840 was 19,547; Jacksonville about 1900.

FRANKLIN BEATS THAYER.

A fast, clean game at Franklin, Sunday between the local team and the baseball boys from Thayer resulted in an 8 to 9 victory for Franklin. The game was featured by the fast work of Wheeler, Teneey, Seymour, Mahan and Lonergan of Franklin. Hassler pitched the first six innings and struck out six men, allowing four hits. Padgett pitched the last three innings, striking out nine and allowing two hits.

ATTENDED MAY DAY FETE.

Mrs. Lee Skiles, Mrs. W. S. Goodell, Mrs. James Meade, Mrs. W. B. Strubbing and Miss Helen Skiles of Virginia were in the city yesterday to attend the May day exercises at the Woman's college. They made the trip in Mr. Skiles' new model Norwalk automobile and while here were the guests of Mr. and Mrs. Thomas Heaton of South Clay avenue.

MEXICAN FEDERALISTS PROVISIONING PUEBLA

IF DRIVEN FROM CAPITAL HUERTA WILL MAKE LAST STAND AT PUEBLA

More Americans Disappear Mysteriously in Vicinity to Mexico City—Business Conditions in Capital Are Reported Quiet.

BULLETIN.

MEXICO CITY, May 11.—The rebels attacked Tampico on Saturday and were defeated with serious losses. General Ignacio Morones Zaragoza, federal commander at Tampico, announced a federal victory in an official message which he sent to the war department today.

VERA CRUZ, May 11.—From Mexico City come late reports of quiet business conditions but of large numbers of men and boys drilling in the streets. A few nights ago a mob gathered before the Brazilian legation and demanded that Luis d'Antin, an attaché of the American embassy who had taken refuge there, be given up. Threats were made to kill him. No measures have been taken to fortify the capital so far as is known. The federalists, however, are provisioning Puebla, midway between Vera Cruz and the capital on the line of the Inter-Oceanic.

General Navarrete is said to be holding outposts east of Puebla watching the American lines. A rumor is current that in case Villa drives the federalists out of the capital Huerta is planning to make a stand at Puebla which has military advantages for defense. Puebla is the city where the Mexicans made a desperate resistance against the French invasion.

An American named Foster, formerly a correspondent for a New York but later employed in a bank at the capital, is missing and is supposed to have been imprisoned by the federalists. The secretary of the American consulate of Saltillo, Jose Marchi, called at the Brazilian legation a few days ago and reported that the consulate there had been looted by the federalists. Secret codes and the office records were seized and Vice-Consul John R. Silliman and his wife were arrested and taken to the governor's palace. The secretary did not know what had eventually become of them.

The number of American women left in the capital is variously estimated up to three hundred. They are waiting for what they characterize as the last definite warning.

Mostly all of the American doctors in Mexico City refuse to leave their patients.

The American hospital is open and in it are American nurses and several American patients in the hospital.

The British legation has sent out another notification to all British subjects urging the advisability of their leaving the country immediately. In the capital the strictest censorship over messages to outside points is being maintained. At the cable office no messages signed by Americans are being accepted or delivered.

It is reported that General Huerta is determined to prevent the further shipping of bullion from the country. The express companies have been prohibited from accepting shipments without permission from the government. It is understood that great quantities of bullion both in the capital and at the mines are being held under this ruling. The mine managers and foreign employees are abandoning the properties in all directions, leaving them to the care of Mexican employees.

FEDERATION OF MUSICIANS.

Des Moines, Iowa, May 11.—The 19th annual convention of the American Federation of Musicians assembled in this city today and was called to order by President Joseph N. Weber of New York. The roll call showed an attendance of delegates from many of the leading cities of the United States and Canada. The sessions will continue five or six days and will be devoted to the consideration of numerous matters relating to the welfare of band and orchestra organizations. The federation was organized in 1896, as the successor of the old National League of Musicians, and has been affiliated with the American Federation of Labor since its first year.

Mr. and Mrs. C. W. Mason entertained for a number of their relatives Sunday at their home in Asbury. The occasion was planned as a surprise on Mr. Mason in honor of his birthday.

J. R. Pearce, vice-president, and Joseph Fisher, assistant cashier, of the Ricker National bank of Quincy, will be in Jacksonville today for the meeting of group eight bankers and will be guests at the home of John A. Ayers.

The Hospital Aid society of Grace M. E. church will gather this afternoon at 2:30 in the church building for the regular May meeting. Orders have been already received for eight rugs and it is requested that the ladies bring their working materials and that as many as possible attend.

COUNCIL BEGINS FRANCHISE WORK IN EARNEST WAY

Street Railway Measure is Practically Agreed Upon.—Gas Franchise Fixes Maximum Price at \$1 and Electric Maximum Figures are Ten Cents.—All Three Measures Will Soon Be Up to the Company For Acceptance.

At the Council session Monday morning the work of considering the utility franchises was begun. An afternoon session was held and progress was made to the extent that the street railway franchise was given its first reading and the reading of the gas franchise progressed almost half way through that document. Then adjournment was taken until this afternoon when it is contemplated to finish the gas ordinance and to take up the electric ordinance today.

After the ordinances are given a first reading they must lie over under the rules for a week before they can be finally adopted, and from appearances this is the course that will now be followed with reference to the documents. After they have been laid over for five days during which the company has a right to signify acceptance then if this acceptance is filed, within 30 days an election must be called to put up to the people the question as to whether or not the franchises will be adopted.

The gas ordinance fixes the rate at \$1.00 per 1000 cubic feet instead of \$1.15 as now in use. The maximum rate for electricity is fixed at 10c. The present maximum rate is 13 1/2c. It is understood that these rates are satisfactory to the Railway and Light Company.

The franchise for the Street Railway had but three changes made in it from the form in which it was read. In section five, the franchise provided that the space between the rails must be paved with whatever material was used on the street and Mr. Miser objected on the ground that it was not feasible to use asphalt. This section was amended to provide that creosote block, or some other paving material approved by the board of local improvement can be used in such cases.

In the section which grants the company authority to transport materials and supplies over its line, an amendment was made so that coal can not be hauled except between the hours of 11 p. m. and 6:00 a. m. Mr. Knollberg objected to the whole section on the ground that it might be construed to grant the company the authority to use one man passenger cars.

Section 19 provides the payment to the city of 2 per cent. annually of the gross receipts and this was amended to make the payments due semi-annually.

The franchise in the preamble and section one indicates its character and purpose and outlines the streets which the lines are to traverse.

Section 2 provides that the motive power shall be electricity.

Section 3 relates to the height from the ground of the overhead wires and that new polls shall be of iron—and be placed under the supervision of the city.

Section 4 stipulates the gauge of the railway and how it is to be laid and maintained.

Section 5 makes provision for the relaying of pavement which the company disturbs and for material to be used in the paving work between its rails and adjacent thereto.

Section 6 relates to the right of way the company shall have on its tracks, and provides that cars shall stop for funeral processions, for fire apparatus and shall come to a stop also before beginning to cross any steam railroad.

Section 7 provides for the sounding of gongs before reaching street intersections; the speed which cars may move; a time schedule showing that cars must leave the square not later than 6:15 in the morning and as late as 10:45 in the evening and providing also for a special car from Webster avenue and West College avenue to accommodate traffic for the 6 o'clock Alton train.

Section 8 grants authority for the transportation of material and supplies over the company's line.

Section 9 grants the company authority to cross at grade present or future lines of railroad tracks.

Section 10 gives the company the right to have its tracks used by any interurban company operating to a point at not less than 10 miles distant.

Section 11 provides that the company shall have a first class system and keep cars comfortable.

Section 12 provides that the company shall maintain drains and culverts under its track.

Section 13 relates to the fares to be charged and provides that 6 tickets shall be sold upon cars for 25c; that children under 6 accompanied by one regular passenger should be carried free. That school children's tickets of 40 tickets good with in 60 days of date of sale, shall be sold for \$1.00 at the company's office and shall be valid for travel between 7:30 a. m. and 4:30 p. m. This does not apply to people over 18 years of age. The company further agrees to sell books of 100 tickets at its office for \$4.00.

Section 14 provides that the company shall save and keep harmless the city from any damage suits because of its lines.

Section 15 defines the meaning of the term company, grantee, lessee, etc.

Section 16 provides that the company shall within 5 days after the passage of the franchise file its willingness to accept the same and within 30 days after the approval by the people shall file notice of its acceptance.

Section 17 provides for fines for persons mutilating the property.

Section 18 provides fine for a person impeding the speed or operation of cars.

Section 19 provides that 30 days after the expiration of one year from the date of the passage of the ordinance and each year afterward that

the company shall pay two per cent on its gross receipts (this was amended to make payment semi-annually). Further it is provided that after the expiration of ten years, and during the period of ten years the percentage shall be 4 per cent instead of two per cent.

Section 20 provides that the city shall have the right at any time to purchase the railway system at such price as may be agreed upon by the city and the company; provided the city shall give notice 12 months in advance of its intention to buy and shall pay for the road the actual physical value of the street railway system. Further it is provided that if the city and the company cannot agree upon a price, then the figures are to be fixed by a board of arbitration consisting of five members. For such arbitration the city shall select two persons, the company two, and the four shall select the fifth, who shall be a practical engineer. The price to be paid shall be what the board of arbitration fixes as the actual physical value of the property, plus 10 per cent.

Section 21 provides that the rights and privileges granted in this franchise shall continue during the period of twenty years.

CHAMINADE CLUB.

The last regular meeting for the season of the Chaminaide Music club was held Monday afternoon in the J. Bart Johnson music rooms. There was a good attendance of members and many invited guests. This has been a most successful year for the club. Fifteen programs of the best music carefully selected from the works of our greatest composers of the present time and of the old masters, and intelligently arranged along the chosen line of study have been faithfully carried out with few exceptions, and have been so thoroughly prepared and artistically rendered that each program was worthy of public recital. The excellent program for the afternoon was brilliantly rendered as follows:

Program.

TO SETTLE GOVERNORSHIP.
Montgomery, Ala., May 11.—For the second time within a month the Democratic voters of Alabama today engaged in a general primary. Today's primary was in the nature of a run-off contest to determine the candidates for places on the state and county tickets in which the results of the primary last month were not decisive. The state ticket today contained only six names, B. B. Comer and Charles Henderson being contestants for governor, Dr. A. A. Pearsons and J. A. Wade for commissioner of agriculture and William L. Martin and D. H. Riddle for attorney general. The definite results of the primary will not be known before tomorrow.

FRANCHISE ACTION DESIRABLE.

The city council has again begun the consideration of the much mooted question of the utility franchises and now seems in a fair way to agree upon these important measures and get them before the people for approval or disapproval. Such progress was made yesterday that the street railway franchise was given a first reading and a number of sections of the gas franchise were read and the remainder will be considered at a special session this afternoon. It is the intention to then take up the electric light franchise and if the three are accepted by the railway and light company they will then be submitted to the people at a special election in accordance with the law governing this matter.

For more than two years, now, the utility franchises have been up for discussion, occasionally and it is certain that the time has arrived to bring these matters to some definite settlement. Since the consideration of the franchises commenced important changes have taken place and it is probably true that the exact language and provisions of the franchises are not now as important as was the case when their consideration was commenced.

This situation has developed from that fact that the Illinois Utility Commission came into life January 1, 1914 and a study of the law and a consideration of what are acknowledged to be the powers of the commission make it apparent that no matter what provisions might be included within the franchises, if such provisions could be proved unfair or unjust by either the company or by the people that the commission would have full authority to make the changes asked for. For example, if the council were to fix the price for gas and for electricity at a figure so low that the company could not earn a fair return upon the money invested in its properties here, then the company might determine that it was best to signify its willingness to accept the franchise conditions offered with the intent in mind of later on appealing to the commission and showing that the prices fixed are so low that a profit could not be made after making a reasonable allowance for deterioration.

On the other hand, the people might decide to vote for franchises which contain certain prices or certain other provisions of which they did not wholly approve because they remembered that the Utilities Commission affords them a high tribunal where any citizen may have a hearing with reference to an alleged grievance. However, it will doubtless be remembered by citizens that while they do have this court of appeal to rectify their wrongs, that the powers of the commission are so great and the questions so many upon which they must pass, the interests so vast over which they have control, that it would take a long period to reach individual cases.

The street railway franchise as practically agreed upon yesterday does not vary much from the franchises presented in the past. The gas franchise, which is now under consideration, has provisions in it with reference to testing the quality

of gas and fixes the price at \$1, instead of \$1.15 as now paid. The electric franchise fixes the maximum price at 10 cents instead of 13 3/4 cents now being paid by small consumers. It is not the purpose of the Journal at this time to discuss these provisions or prices, but it does urge on the people and the council the desirability of getting some settlement of these long pending questions.

As the case is now, the utilities are being operated without franchises and if any citizen desired to take a question relating to service or rates up to the commission, he would find himself in the position of having no basis for his action. If franchises are adopted and are still not exactly what they should be, then the city, or citizens as individuals, or the company itself, can go before the commission with something definite to work from.

The Journal believes that franchises should be framed by the council, which give to the people of Jacksonville something in return for the privileges granted and believes that the most valuable returns will be in good and efficient service and in reasonable prices for the commodities used.

The Journal believes that the rights of citizens should be fully protected in the matter of service and prices, but it also believes that the franchises should be so framed that the utility company will be afforded opportunity for a fair and just return upon the large sum invested in the local properties.

There is no reason why there should be ill feeling between the utility company and the people at large and there is no ill feeling at present, although there may be some well founded belief that gas and electricity could be sold profitably at lower figures than have prevailed in the past. Sometime ago there was a suggestion from the company that the very fact of the unsettled condition of the franchises made it impracticable to spend large sums for betterment here. Settling the franchises would remove this obstacle. Equipment betterments should mean more efficient service and at lower figures. The company no doubt desires the friendship of the people and that friendship is really necessary to its continued prosperity. In other words, the interests of the public and of the company in many regards are one, and in securing franchises which guarantee good service at fair pay the interests of both parties to the long time contracts will be subserved.

THE CAR THAT STAYS NEW

Lesser-built cars may look as well, may run as well when new, but when others grow noisy, Reo the Fifth will stay silent. It will save you hundreds of dollars in the years to come in troubles, repairs and upkeep.

OTHER TESTS
All steel is made to formula and each lot is analyzed twice. Gears are tested for 75,000 pounds per tooth. Springs are tested for 100,000 vibrations. Engines get five long and radical tests, and the tested engines are taken apart and inspected.

OUR EXTRA CARE.
Reo the Fifth, built by R. E. Olds, is based on 27 years of experience. It marks our final conception of what a car should be.
It is built for the future—for what legions of users will say of us after five years.
We spend six weeks in building each car. And we add one-fourth to what the car would cost if built by other standards.
Each driving part is made one-half stronger than necessary. Each is tested to meet the requirements of a 50-horse-power engine.

We use a clutch—to prevent gear clashing—which costs twice what others cost. We use 15 roller bearings and 190 drop forgings. We use over-size tires.
Then the cars are built slowly and carefully. Parts are fitted exactly. There are countless tests and inspections.

THE DEATH OF MR. POST.

Mention was made recently of the death of Mr. Henry M. Post, who was born in this city in 1840. Mr. Post was one of the most prominent of the attorneys of St. Louis and had taken an active part in public affairs there for years. He was also a staunch member of the First Congregational church. The church bulletin issued recently contained the following notice of his death:

"The sudden death of Mr. Henry M. Post, removes from our fellowship one of our most loyal members. It is hard to realize that we are never again to see his genial personality present with us.

"After such a long and active, social, civic and religious intimacy the shock comes with startling suddenness. Truly 'The mourners go about the streets.'"

"Mr. Post was born in Jacksonville, Ill. in 1840. He was the third child of Dr. Truman M. Post, the founder and first pastor of this church. Mr. Post attended Yale college for two years, and after being graduated from Jacksonville college in 1862, began the practice of law in St. Louis with his brother Truman A. Post.

"He was a patriot, always loyal and sincere, though disqualified from active service in the United States Army on account of defective hearing. He was employed as war correspondent for St. Louis newspapers, during the period when many of his associates were enlisted in the ranks, handicapped physically, he has taken an active interest in the affairs of the city, and of the church. From time to time he has contributed valuable articles of historic and literary nature to the local papers. The articles have always been of high literary merit, and have revealed a mind of great clearness and power. Among his legal associates his ability as a lawyer was held in the greatest honor."

DEFIANCE LAUNCHED AT BATH. Bath, Me., May 11.—The racing sloop Defiance, one of the trio of candidates for the defense of the America's cup in the international races to take place the coming summer, was successfully launched this afternoon from the yards of her builders in this city. Prominent yachtsmen of Boston, New York and Philadelphia, who comprise the syndicate that is building the Defiance, were present at the launching. The sloop was christened by Miss Frances Clark, daughter of E. Walter Clark, of Philadelphia, a leading member of the tri-city syndicate.

The Defiance was designed by George Owen of Bath. The boat has a length of 115 feet overall, a beam of 22 feet 6 inches, and is 13 feet 9 inches fixed draft and 75 feet waterline. The most striking feature of the yacht's underbody is her lead keel, which is quite different in length and shape from the ordinary keel. Another distinguishing feature of the Defiance is the clean edge of her deck, which is without bulwarks or handrails. In this respect she differs from the Resolute and the Vanitie, the other two candidates for the defense of the cup.

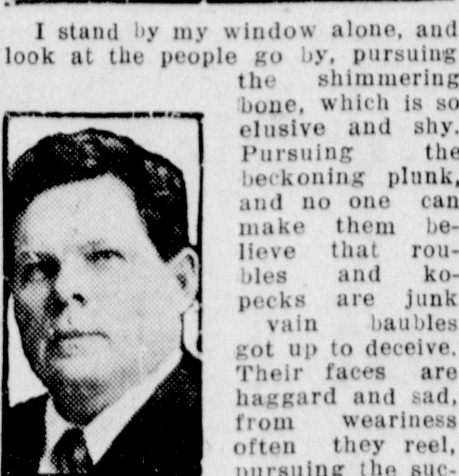

It is the present plan of her builders to have the Defiance completed and rigged within the next week or ten days. After being given several trials off the Maine coast she will be taken on a spin to Marblehead.

JOURNALISM CONFERENCE.

Lawrence, Kas., May 11.—A national newspaper conference, conducted under the auspices of the department of journalism of the University of Kansas, was opened here today and will continue until Friday. The conference will discuss the relation of advertising to the cost of living, the advisability of licensing newspaper men and the status of newspapers as public utilities. Hamilton Holt of New York city, Rev. Washington Gladden of Columbus, Ohio, and Lieut. Governor Barrett O'Hara of Illinois, together with a number of well known magazine and newspaper editors, are scheduled to address the conference.

The Bystander.

By WALT MASON.

I stand by my window alone, and look at the people go by, pursuing their life, the shimmering bone, which is so elusive and shy. Pursuing the beckoning plunk, and no one can make them believe that troubles and knocks are junk vain baubles got up to deceive. Their faces are haggard and sad, from weariness often they reel, pursuing the succulent scud, pursuing the wandering wheel. And many are there in the throng who have all the money they need, and still they go racking along, inspired by the demon of greed. "To put some more bucks in the chest," they sigh, as they toil, "would be grand; the beauty and blessing of rest is something they don't understand. We struggle and strain all our years, and wear out our bodies and brains, and when we are stretched on our biers, what profit we then by our pains? The lawyers come down with a whoop, and rake in our bundle of script, and plaster a lien on the coop before our poor orphans can yip. I stand at my window again, and see the poor folks as they trail, pursuing the yammering yen, pursuing the conquering kale; and sorrow is filling my breast, regret that the people won't know the infinite blessing of rest, that solace for heartache and woe.

HONORS IN COURT PAID TO JUDGE BARNES

RESOLUTIONS PRESENTED BY BAR ASSOCIATION PLACED ON RECORD.

Tributes Paid by Various Attorneys and by Presiding Judge—Deceased Was Extolled as an Able Lawyer and Man of Admirable Characteristics.

Resolutions were adopted Monday, in memory of the late Judge Charles A. Barnes and were spread upon the records of the Morgan county circuit court. Tributes were paid to the memory of Judge Barnes by Judge Owen P. Thompson, Judge Norman L. Jones, J. P. Lippincott, J. J. Reeve, J. A. Bellatti, Judge M. T. Layman, William N. Haigrove and T. F. Smith. The committee which presented the resolutions in accordance with the instruction of the Morgan County Bar association included Judge Thompson, William N. Haigrove and William T. Wilson.

Judge Jones stopped the usual proceedings of the court about 10:30 o'clock to make possible the exercises mentioned. He recognized J. J. Reeve, president of the Bar Association who referred briefly to the death of Judge Barnes and gave an estimate of the life and work of the deceased. He mentioned too the action of the association with reference to resolutions and then Judge Thompson speaking for the committee presented the following resolutions which were ordered, spread upon the records and a copy sent to the family.

The Resolutions.

We meet this morning to give formal expression to our sense of loss occasioned by the death of Judge Charles A. Barnes and to offer our tribute of respect to his memory. Judge Barnes was a distinguished member of the Morgan county bar for more than a quarter of a century. He was born in the city of Alton July 4, 1855, and came to this city shortly thereafter, where he made his home during the remainder of his life. After graduating from Illinois college he became a student of law at the Ann Arbor University, and in 1878 was admitted to the bar. Immediately thereafter he entered upon the practice of law and continued in active practice up to the time of his death, which occurred December 29, 1913.

In the capacity of a public official he served as city attorney of Jacksonville in 1882, as state's attorney for Morgan county for eight years commencing in 1884 (having been twice elected) and as county judge of Morgan county for seven years. He not only received honors as above stated in the line of his profession but from numerous fraternal societies of which he was a member. In the order of the Knights of Pythias he held the highest positions in the state and in the world that can be conferred by that organization. To his honor it may be said that in every position of public office and trust he served with conspicuous ability and faithfulness.

Politically he was a Democrat; religiously a Presbyterian, and socially a fine type of the American gentleman. In the profession he deservedly earned and sustained the reputation of a lawyer of the first class. In criminal practice and procedure he out-ranked all others at this bar for many years. His ability and resourcefulness brought him repeated successes, not only in the criminal branch of the law but in all classes of litigation common to the locality where he practiced his profession. By nature he was genial, social and companionable. With loyal and sincere devotion to his clients' interests, he deservedly won a high place in the estimation of those who sought his professional services, and commanded the respect of his associates at the bar and the judges of the courts where he practiced. He was a skilled and successful diplomat in obtaining for his clients favorable terms of settlement in disputed matters where the law or facts were doubtful or likely to be resolved against his client. Through the wisdom of his counsel and advice many clients have been saved from wasteful litigation. In contested cases he had the faculty in argument before a jury of marshalling all the strong points of evidence favorable to his side of the case in a most convincing manner and at the same time minimizing the force of the evidence given on the side of his opponent.

In short, Judge Charles A. Barnes was a successful adviser and a safe counselor. His manner toward his brother members of the bar was courteous and pleasing and where accommodations could be granted to opposing counsel without detriment to his client's interests, the favor was rarely withheld. Judge Barnes was not only interested in the science of the law and the science of government, but he was also deeply interested in every phase of the world's progress touching the life and happiness of humanity. We mourn his loss. Our association is bereft of one of its ablest members. The loss to the community is one which is shared in both state and nation, for he was most widely known. Of his love and tender care for his wife and children only words of praise can be spoken, and to them we tender our heart-felt sympathy and assurance of a mutual grief.

The Whig Meeting of 1840.

The following is a brief reference to the great meeting at Springfield in 1840, as given before the State Historical Society last Friday: Judge Thompson Remarks. After the reading of the resolutions Judge Thompson said in part: "Judge Barnes entered upon the practice of law about the same time that I did. I have known him well for more than 25 years. Since he

became a member of the Morgan County Bar, the ranks have been so depleted that but very few remain—who were practicing the profession here at the time that he commenced. I think but three are within the sound of my voice who were lawyers at the time he entered upon the practice of law, viz: Judge Kirby, Mr. Lippincott and Judge Layman. He was a strong advocate. He rose at times to the very highest of eloquence and forcefulness. I do not know who would be more missed in this community, in this court room than he. Here was the theatre of his actions for such a long period of time. And as we come today to present the memorial we cannot but be impressed with the frequency of these sad ceremonies in later years that have been occasioned by the death of our brother members. It comes not only as a shock but comes to many of us as a warning. He has answered to the decree of the Great Judge of the court of the Universe. That decree will come certainly to all of us. How soon to another no one can surmise but this we feel that we have lost a companion, lost an associate, lost a friend, in Judge Barnes."

A Loss to the Bar.

Mr. J. P. Lippincott said in part: "My acquaintance with Judge Barnes began in Sept. 1863 when I came here to school and to board in the house next to the one in which his parents lived. His father had previous to this time been elected as pastor of the Congregational church of Chanderlyville where his family lived and where my brother Ben lived and I came to know the family more intimately by virtue of those circumstances than I would otherwise have done at that time. But by some circumstances, I know not what, I was present when Judge Barnes' father brought him to Whipple Academy and entered him as a student there. And by another circumstance I had formed through a friend of mine acquaintance with the family into which Judge Barnes married before he, I guess, became acquainted with his wife. And our acquaintance ran along through the years, never very close, never intimate as we were not in the same political party, not in the same societies, not in the same church. He was far more active in life—but our relations were always pleasant, and I add my voice to others in the recognition of the loss that has been sustained by this bar in his untimely death."

Kindly Spirit Emphasized.

Mr. John A. Bellatti said: "If the court please, in speaking in regard to Judge Barnes it is somewhat difficult for me to express my feelings about it because Judge Barnes and I were very close friends—for many years. We have had adjoining offices for nearly 20 years before we were partners and our door was always open between us and hardly a day passed that we were not together in some manner. Judge Barnes' ability as a lawyer has been spoken of and I entirely agree with everything that has been said in the resolutions and by others with regard to his ability as a lawyer. When Judge Barnes agreed to a thing the bar all know that it was done. Nothing more was needed than Judge Barnes say so. It would be done. Now with reference to Judge Barnes as a man and to his disposition: I want to say that I don't think I ever saw a man of a more kindly, a more uniform kindly disposition. I agree with all that Mr. Reeves has said of him in that respect. In all of the years that I have known him I never heard an unkind expression from him and while Judge Barnes sometimes criticised, as we all do, he never did so in an unkind spirit. I feel with all the members of the bar deeply the loss of his going.

Judge M. T. Layman said in part: "I first became acquainted with Judge Barnes I believe in 1875 when I came to Jacksonville to live. Perhaps there is no class of men that are more in public life and their errors, their mistakes and their faults more clearly exposed than others are. Judge Barnes was a man of splendid physical powers, he had a splendid physical development which was a great benefit to a man in intellectual pursuits. He had an active and strong mind. He had had the best of opportunities perhaps all of his life. His father was an educated man and I believe was a graduate of one of the Eastern colleges—and I believe was a classmate of that distinguished citizen, Charles Sumner. Mr. Barnes, brought up here in Jacksonville, had excellent opportunities to develop his powers and natural ability to the very highest. As a lawyer I regarded him as doing his best work as a prosecuting attorney. We say a man is gone—that he has died—that has come. We know very little of that stage. [We know the physical form becomes still. We see him and hear him no more. We cannot add to it nor we cannot detract from it by what we say. The character it lived for what good it has done. [We all make mistakes. There is no man perfect. When we pass from this stage of existence if it can be said of us that we lived to the best advantages that we had or the best advantages that we could create, that we lived honorably, that we lived fairly with our fellow men—that is the best life a man can live."

"There are a certain class of people in the community that are very suspicious of lawyers, and of a part of that feeling is very well founded, but a great deal of it is very erroneous. They place their property rights in the hands of lawyers; they place their domestic relations in the hands of lawyers and they place the question of their liberties and their lives in the hands of lawyers, and notwithstanding that there is, as I said before, this mistrust in the minds of the people of attorneys. But I have found it almost universal that attorneys are true to the interests of their clients—that they are generally very loyal to them and put forth their best efforts. They can make for their clients. Whatever life we live will be

Thirteen Inning Tie.
St. Louis, Mo., May 11.—Dark-
ness stopped the St. Louis-Chicago
game here tonight with the score
five to five in the thirteenth in-
ning.

In the eleventh inning, Magee and
Sweeney came to blows, the latter
knocking the St. Louis player down
before the players and umpire could
interfere. After Magee had
singled he tried to steal second base
and, he says, after tagging him
Sweeney hit him in the back with
the ball. He got up from the base
and struck at the Chicago infield-
er who dropped him with several
punches to head. The score:

O Corn-less Joy! "GETS-IT" for Corns

Nothing in the World Can Beat It
for Corns and Calluses.

Now try the different way, the new way,
the absolutely sure way, the painless way
of getting rid of those corns that have
pestered the life and soul out of you for

such a long time. Drop everything else
and use "GETS-IT." A few drops applied
in a few seconds does the work. Useless
junk, like Red-riding shoes, corn
stand up like pop-eyes, razors, corn
diggers, and files that make corns grow
faster, are all done for. "GETS-IT" is
a new principle, makes corns shrink,
vanish! It can't stick to the stocking, or
hurt the flesh.

"GETS-IT" is sold by all druggists, the
bottle, or sent direct by E. Lawrence & Co.,
Chicago.

Sold in Jacksonville by Arm-
strong's Drug Co.—J. A. Obermeyer.

Purifies Blood
With Telling Effect

Gives Conscious Evidence of
Its Direct Action.

S. S. S., the famous blood purifier, almost
talks as it sweeps its way through the cir-
culation. Its action is so direct that the very
often in some forms of skin affliction the
appearance of the eruptions changes over-
night. The itch and redness are gone and
recovery begins immediately.

As a matter of fact, there is one ingredi-
ent in S. S. S. which serves the active pur-
pose of stimulating each cellular part of
the body to the healthy and judicious ex-
cretion of its own essential nutrient. This
is why it regenerates the blood supply; why
it has such a tremendous influence in over-
coming eczema, rash, pimples, and all skin
afflictions.

And in regenerating the tissues S. S. S.
has a rapid and positive antidotal effect
upon all those irritating influences that
cause rheumatism, sore throat, weak eyes,
loss of weight, thin, pale cheeks, and that

SOME OFF-SIDE CHUTES.

Joe Tinker has harvested a most
enviable record as a ball tosser, but
as the engineer of a gas wagon
Favara's record is very much on the
hummer. Last winter, in Chi-
cago Joseph cranked one of his big
touring outfits and asked a brother-
in-law or some other near relation
to accompany him on a spin about the
city. He got away from his
home in the Oak Park section of the
metropolis in fairly good shape, un-
til he connected with the congested
traffic on West Lake street. Here
he attempted to do a Tinker-to-
Evers-to-Chance, dodging surface
cars, elevated road supports and
heavily burdened trucks. Joseph
executed a most excellent putout, as
when the shortstop and his kin were
dug out of the debris the machine
was down and out and had to be
carted off to a junk heap. Early
this spring the Chief manager in-
vested something like \$7,000 in an-
other machine. By careful nursing,
he was able to retain it intact until
last Friday. That day being an
open date with his club, the ball-
tossing figure it an opportune time
to make preparations to protect
himself against loss in case of an-
other run-in with West Lake street
traffic. He was off to a good start
leaving Oak Park on his way down
town, to keep an engagement with a
risk agent, to buy insurance on his
car; but when he hit the surface and
elevated street car district he bumped
into the same old trouble. The
street was damp, and in attempting
to keep his machine straight ahead
on the base lines the critter skidded
and bumped "ker-chock" into a big
truck. The truck escaped without a
"scratch," but Mr. Tinker, when he
was rescued, had nothing left of his
\$7,000 contraption that he could in-
sure. Joe knows baseball from Al-
pha to Omega; but what he does not
know about automobile differentials,
driving pinions, floating axles,
driving shafts, magneto ignition
plugs, carburetors, etc., would fill a
volume much greater in bulk than
Noah Webster's fascinating "novel."

The weight question will soon
compel Johnny Kilbane to relinquish
his hold upon the featherweight
championship. The ex-bookkeeper
is scheduled to hook up this month
with Johnny Griffiths at the real
lightweight limit—133 pounds
ringside.

Next Saturday Urbana will be
the Mecca for the high school ath-
letes of this state. Over 100 schools
with 800 candidate will participate
in the twenty-second annual ath-
letic carnival battle for the Illinois
track championship. This will be
the largest field in the annals of the
classic. At present the Cook county
schools hold the championship; but
with the loss to Oak Park high
school of Geolitz, Irish and other
stars, the big 'uns are looking for
a stubborn resistance. Its year
from the "down state" juveniles.
The carnival program is as follows:
Friday, 1:30 p.m.—Track meet, Chi-
cago vs. Illinois. 3:30 p.m.—Base-
ball, Chicago vs. Illinois. Saturday,
9 a. m.—Annual interscholastics, 3
p. m.—Baseball, Northwestern vs.
Illinois. 7 p. m.—Annual circus.

Old Rosebud is the new king of
the turf for the commencement of
the 1914 campaign for the running
laurels and the kale. The W. C.
Applegate gelding, capably handled
by Jockey McCabe, annexed the for-
tenth annual renewal of the Ken-
tucky Derby, at Churchill Downs,
Louisville, last Saturday. And the
gelding, the fourth unsexed animal
to win this famous classic, showed a
remarkable burst of speed, covering
the distance in 2:03 2-5, a
track record. This is all the more
remarkable in the face of the fact
that the going was the reverse of
fast. All the night previous there
was a heavy downpour of rain, so
that at the opening of the day's
sport the track was soft and lumpy.
Another pleasing thing about the
running of this famous race is, that
the runner was the public choice,
being held a 1 to 2 risk in the bet-
ting. That there is a general rival-
ry in the "sport of kings" was am-
ply exemplified by the crowd in at-
tendance, which was one of the largest
in the history of beautiful old Churchill Downs.

Francis Oulmet, the golf cham-
pion, who is now in England to
compete for the golfing titles of the
"Tiger" Little Abbot, reached his
majority on Friday, and his moth-
er, from Boston, cabled a moth-
er's blessing and a prayer for a
successful campaign on the British
links.

Sunday was the first day in
which Chicago's three league teams
were in conflict, and the attendance
indicates that the Cubs are still
hustling the Murphy hoodoo. The
Yankees differ slightly from two sources.
One, the conservative, gives
the Sox 18,000; the Reds, 18,000,
and the Cubs, 10,000. Another ex-
treme, the enthusiasm of the fans,
divides the turn-out as follows: Sox
22,000; Chiefs, 22,000; Cubs, 22,
000. With Ty Cobb and Home
Run as rival attractions at the
o. b. parks, Joe Tinker and his
North Side cohorts are rather
chesty over the crowd which wit-
nesses the team's downfall at the
hands for that old favorite
from the West Side, Mordecai
Brown, and his Stoufeds.

Big Moose Ed Walsh is about
due to take up his share of the burden,
and has been taken on the trip east.
Just as quickly as the weather warms
up, his sick arm will be given an
opportunity to convince himself and
Comiskey that the kinks have been
laid.

Of the fund being raised to assist
Lou Criger, whose health is critical,
Comiskey and the White Sox
have contributed \$200 of the \$771
already raised. The old battery
partner of Cy Young a few weeks

ago was taken from his home in Elk-
hart, Ind., to Boston suffering from
tuberculosis in an advanced stage.
This Sox gift was the first given by
a body of players and Capt. Harry
Lord notified Criger that more mon-
ey was yet to be collected from his
team. Comiskey headed the list
with \$50.

Grover, a new find with Buck
Korke's Omaha Western league
team pitched a no-hit, no-run game
against Sioux City Sunday. The
voluminous Buck is in need of a few
more Grovers, as his team is slip-
ping dangerously close to the cellar,
Wichita only stopping him from
tumbling in.

Pittsburgh appears to be letting
up in their strenuous campaign
for the bunting. They have allowed
the Cubs to slough them for two in
a row. Wagner, Kelly and Carey
seem to have lost their batting
jugs in the robbery of the club
house at Forbes Field, while Mc-
Quillan and Adams are unable to
extend themselves against the chilling
blast from Lake Michigan.

*Another Wisconsin city is to be
wiped off the boxing map. Poor at-
tendance and worse attractions have
forced Kenosha promoters to squeeze
the sponge.

Danville will continue in the
Three Eyes, an enthusiastic fan-
dom having contributed \$2,000 bonus to
insure the management against loss-
es this season. Rock Island was af-
ter the franchise, and it will be news
to Jacksonville fans to learn that
several local devotees of the game
in this city were casting covetous
eyes in that direction. A secret
meeting was held here one evening
last week, when the matter was dis-
cussed and a committee appointed to
look after the matter of securing
the franchise.

ITCHING ECZEMA IS DRIED RIGHT UP WITH SULPHUR

Use Like Cold Cream to Subdue It-
ritation and Clear Skin.

Constant or intermittent irrita-
tion producing itching and red, an-
gry Eczema patches on the skin is
readily relieved with bold-sulphur
cream. The moment it is applied
the itching stops and the healing be-
gins, says a noted dermatologist.

It effects such prompt relief, even
in aggravated Eczema that it is a
never-ending source of amazement
to physicians.

For many years bold-sulphur
cream has occupied a secure posi-
tion in the treatment of cutaneous
eruptions by reason of its cooling,
parasite-destroying properties. It is
not only parasiticidal but also anti-
pruritic and antiseptic and nothing
has ever been found to take its place
in overcoming irritable and inflam-
matory affections of the skin. While
not always establishing a permanent
cure, yet in every instance it instan-
tly stops the agonizing itching; sub-
dues the irritation and heals the in-
flamed raw skin right up and it is
often years before any Eczema
eruption again appears.

Those troubles should get from
any pharmacist an ounce of bold-
sulphur cream and apply it directly
upon the affected skin like you
would any ordinary cold cream. It
isn't unpleasant and the prompt re-
lief is very welcome, particularly
when the Eczema is accompanied
with itching.

Sick Women Made Well

Reliable evidence is abundant that women
are constantly being restored to health by
Lydia E. Pinkham's Vegetable Compound

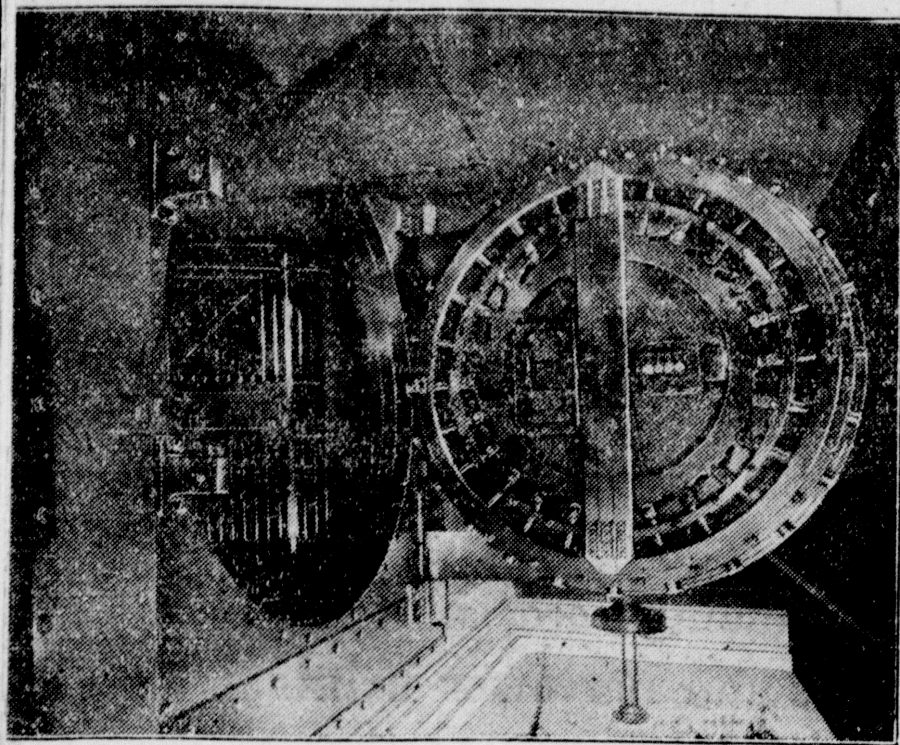

The many testimonial letters that we are continually pub-
lishing in the newspapers—hundreds of them—are all genu-
ine, true and unsolicited expressions of heartfelt gratitude
for the freedom from suffering that has come to these
women solely through the use of Lydia E. Pinkham's
Vegetable Compound.

Money could not buy nor any kind of influence obtain
such recommendations; you may depend upon it that any
testimonial we publish is honest and true—if you have any
doubt of this write to the women whose true names and
addresses are always given, and learn for yourself.

Read this one from Mrs. Waters:

CAMDEN, N.J.—"I was sick for two years with nervous spells, and
my kidneys were affected. I had a doctor all the time and used a
galvanic battery, but nothing did me any good. I was not able to go
to bed, but spent my time on a couch or in a sleeping-chair, and soon
became almost a skeleton. Finally my doctor went away for his
health, and my husband heard of Lydia E. Pinkham's Vegetable
Compound and got me some. In two months I got relief and now I
am like a new woman and am at my usual weight. I recommend
your medicine to every one and

PASTOR FROM CHICAGO CALLED BY THE FIRST BAPTIST CHURCH

Board Extends Summons to the Rev. Percy W. Stevens, Graduate of Chicago Seminary and Assistant Pastor of Large Church.

The official board of the First Baptist church have extended a call to the Rev. Percy W. Stevens of Chicago, assistant pastor of the Second Baptist church. No answer has as yet been received from Rev. Mr. Stevens. The recipient of the summons is a young man of excellent education and good qualifications as a minister. In his address to the congregation here he impressed all by his ability as an extempore speaker. He was born in England and received a part of his education there, afterwards coming to this country and receiving his theological training in Chicago.

Margaret E. Harney, Parlor Milinery, 639 S. Diamond street. Special display of white hats Saturday and Tuesday.

LIGHTNING STRIKES STACK.
During the rainstorm about 1:30 o'clock Monday afternoon a number of men at the Wabash passenger station saw a large puff of white smoke come out of the brick smoke stack at the city light plant. The puff of smoke came out just after a flash of lightning and it is thought the bolt went down the stack.

Carthage vs. Illinois at I. C. campus Friday at 3:30.

SPRINGFIELD MOTORCYCLISTS HERE.

Ten of the thirty-five starters in the first endurance run of the Springfield Motorcycle Club turned in perfect scores Sunday. The machines left Springfield at 10 o'clock Sunday morning and arrived in this city about one hour later, but not before about fifteen had dropped out. The riders remained here for dinner at Hall's and then went back to Springfield. Mayor Davis acted as checker at this end of the run.

JOHN C. M'BRIDE PASSES AWAY MONDAY AFTER LINGERING ILLNESS

Long Time Resident and Well Known Clothing Salesman Dies at Residence on South East Street—Funeral Wednesday.

John C. McBride, a long time resident of Jacksonville died at his home 1248 South East street at 6:35 o'clock Monday morning. Mr. McBride has been in failing health for nearly a year and his death was not unexpected. He was born at Winston-Salem, North Carolina, Jan. 1, 1844 and came with his parents, William and Elizabeth McBride to this county and city in 1851. The family home was established at the corner of Hardin and College avenues and the old dwelling is still there. The family made the journey from North Carolina overland and in succeeding years found this land of promise to be all that they had hoped for. In 1872 Mr. McBride was married to Miss Margaret Havighorst at her home in Havana, Ill. Soon afterward they returned to Jacksonville and this has been their home since that time. The deceased saw active service through a great part of the war of the rebellion. As a soldier he had the reputation of being strong and courageous and these characteristics marked his life in its other relationships. He was long actively connected with Brooklyn M. E. church and was a man whose consistent Christian life entitled him to the respect of all who knew him. Although he was in the grocery business on East State street for some time he was best known in a business way, through his connections with the retail clothing business in Jacksonville. He was employed in the store of the late Leopold Wehl, the late Jos. Tomlinson and at one time was in the store of the Durfee dry goods firm at the southwest corner of the square. He had other business associations also and his latest employment prior to his death was in the store of W. M. Tomlinson. Mr. McBride was a member of Harmony Lodge No. 3, A. F. & A. M., and through a long period and had a marked interest in Masonic affairs. He is survived by his wife and two daughters and two sons, Misses Susie and Helen of this city, D. H. and John I. McBride of Chicago. He is also survived by two grand-children, Harland M., and John Jr., children of D. H. McBride; and two sisters, Mrs. Caroline Lahman and Mrs. Mary J. Richardson of this city. A sister and three brothers, Mrs. Kizzie T. Atkins, Henry C. Louis and Lee McBride, preceded him in death.

Funeral services will be held Wednesday afternoon at 3 o'clock at the residence, 1248 South East street, with the services in charge of Rev. W. W. Theobald, pastor of Brooklyn church. The Masons will have charge of the service at the grave.

VEHICLE TAX NOW DUE.
Notice is hereby given that vehicle license is now due and payable at this office. After May 15th names of delinquents will be given to the police department.

R. L. Pyatt, City Clerk.

MOTHERS' DAY AT SALEM M. E. CHURCH

Mothers' day was successfully carried out at the Salem M. E. church Sunday, a large audience being in attendance. Roses and ribbons of red and white were worn by everyone. Mrs. Austin King presided at the piano and Miss Nellie Green sweetly sang "Tell Mother I'll Be There." Miss Fannie Boyd read an appropriate poem and Edwin Ward delivered an appropriate address. The old friends of his neighborhood were pleased to find that he had lost none of his old time fire of eloquence.

Among those present from Jacksonville were William Ledford Sr., Mrs. Arthur Dunlap and daughters, Rev. W. E. Spoonst, Joshua Vasconcellos, William Ledford Jr., and wife, Miss May Lambert, Miss Little Ledford and John Hobson.

ATTENTION MATT STARR POST.
All members of Matt Starr Post, G. A. R., are requested to meet Wednesday afternoon at the home of our late comrade, James McBride, at 3 p. m. to attend the funeral.

J. M. Schaub, commander. C. E. McDougall, adjutant.

RED O'BRIEN AND BILLY LOVE WRESTLE TO A DRAW AT GRAND

Two Preliminary Matches Precede That of Champions—Big Contest Lasts Nearly an Hour and a Half.

For an hour and thirty minutes Red O'Brien of Woodstock, lightweight champion of the world, and Billy Love of Decatur, lightweight champion of Illinois, wrestled for supremacy, but at the end of that time the referee called the contest a draw. The match was witnessed by a comparatively small crowd.

Two preliminary matches preceded that of O'Brien and Love. The first, between Roy Moore of Springfield and Billy Cruse of Parsons, Kan., both middleweights, Moore won in two straight falls. He got the first in 16 minutes, 51 2-5 seconds with a half Nelson and scissors hold on left arm. The second took only 3 minutes and 35 seconds and this time Moore won with the scissors and arm lock hold.

The second contest was between Billy Smith of Decatur, 124 pounds and Ole Jonson of Chicago, 139 pounds. Despite the difference in weight Smith won his match in two straight falls. The first took 11 minutes and 3 seconds with a half Nelson on left and scissors on right and the second was won in 3 minutes and 52 seconds with scissors hold on body and a half Nelson.

O'Brien weighed 135 pounds while his opponent was 5 pounds lighter, but the little fellow proved a worthy foe. The first period lasted one hour and after a fifteen minute rest, the last period was staged. The crowd seemed to be with Love as he was lustily cheered when he managed to escape from difficult positions on several occasions. He had "Red" nearly pinned several times but the big fellow also cleverly got out.

JUDGE NORMAN L. JONES.

Judge Norman L. Jones began his work on the Morgan county circuit bench Monday and if one may judge from the manner in which the new official handled court affairs the business of the term will be pushed along with vigor. Judge Jones' idea of court atmosphere is seemingly one where courtesy and dignity both have place.

As mentioned in papers throughout the district during the judicial campaign Judge Jones is the law partner of Congressman Henry T. Rainey

with offices at Carrollton. Prior to election to his present post he was states attorney of Greene county, having been chosen for that position without opposition. Judge Jones was a member of the Illinois legislature for two terms at the time having the distinction of being the youngest member of that body. Subsequently in 1896 he was admitted to the bar and began the practice of law. His partnership with Mr. Rainey began in 1904. It is related of him that he has been one side or other of practically every important case tried in Greene county during the past twelve years.

MAY DAY OF OLD ENGLAND

Thursday the fourteenth May day on the College campus, the May day of Merrie England, will be more beautiful this year than ever before. The court of King Henry will come out to meet the revelers and witness their May games. The three types of Old English dances, the Morris, the sword and the country dances, will be presented. This year a group of chimney sweeps will give an intricate Morris dance. The several dancers make the Flamboyance a most spirited and vigorous step and these charming, rollicksome country dances will be worth going far to see. All these with the old music belonging to them are given as in the old, old days, when the village greens of England were gay with the May games. Robin Hood and his merry men join the revels this year with some mad pranks and balad singers will vie with dancers to please the court.

MORTUARY

Coverly.
Alfred Coverly, the seven year old son of Mr. and Mrs. Alfred Coverly, died Monday afternoon at 4:30 o'clock, at the family residence 745 East Chambers street. The funeral will be privately conducted today.

Carter.
Mrs. Elizabeth Jane Carter, wife of the late S. B. Carter, passed away Monday morning at 11 o'clock at Maplewood Sanitarium, after an illness of five weeks, at the age of 81 years.

She was born in Morgan county, January 24, 1833 and had resided here all her life. Her maiden name was Armstrong and she came to Illinois with her parents from Kentucky at an early date.

On January 26, 1854 she was married to S. B. Carter and to them were born five children, only one surviving, Emory R. Carter, who resides west of Jacksonville. She also leaves two grand children, sons of Emory R. Carter, Fred at home and Dr. Clarence E. Carter at Oxford, Ohio.

Funeral services will take place from the Mt. Zion church at 10:30 o'clock Wednesday morning and interment will be made in the Mt. Zion cemetery.

BURNED HOLE IN ROOF.

A spark from the flue is thought to have been the cause of a small fire which called the department to the home of George Baptist on Freedman street at 8:30 o'clock Monday morning. A hole was burned in the roof, though the damage to the structure will amount to little.

The Ingredients Are High Class

In making cakes and pastry for our Delicatessen department, we could use much cheaper materials and still have fairly good results. We have chosen however to make use only of high quality materials and so the Delicatessen pies, cakes, salads, etc. will be found uniformly good.

We believe that the people are appreciating these high quality goods, if judgment can be based on the very liberal patronage given.

MATRIMONIAL

Braxton-Turner.
Hurley Braxton and Miss Dolly Turner of Clarksville, Mo., were married Sunday afternoon at the police station by Justice of the Peace L. Percy Owen. The bride and groom are two colored young people who came to the community about two weeks ago when Mr. Braxton secured a place on a farm. Deciding to get married Sunday forenoon they applied to Justice Owen who secured the license for them and tied the knot in the office of Chief of Police Davis in the presence of a number of the firemen, policemen and other spectators. This was the first ceremony performed by Capt. Owen since elected Justice of the Peace, but he was not lacking in dignity and the event was one consummated to the full satisfaction of all parties concerned.

Baldwin-Crowe.
Roy Lacey Baldwin of Murphysboro and Miss Gertrude May Crowe of Evansville, Ind., were married Monday afternoon at 1 o'clock by Squire W. T. Dyer at his office on West State street.

A LETTER FROM BRAZIL.

The Journal is in receipt of the following interesting letter from Dr. P. C. Thompson who with Mrs. Thompson is now enjoying a South American tour:

Sao Paulo, Brazil, Apr. 20, '14.

Editor Journal.

Dear Sir:

After one night upon the ocean from Rio Janeiro we reached Santos, an important sea port of 50,000 inhabitants, and the greatest coffee market in the world. About four-fifths of all the coffee being exported from this place.

Sao Paulo, our destination, is only 30 miles distant, situated upon a plateau of 2000 feet in height, which is reached by an excellent railway built by English capital. This city of 400,000 inhabitants, is a rival of Rio, but is not so cosmopolitan, yet a more desirable place to live on account of the climate, which reminds one of that of Denver.

The homes are uniformly comfortable and kept sanitary by regular inspection. The streets are well paved with solid granite blocks, about twice the size of our ordinary brick, which are simply laid in the deep red clay of the streets, and when finished are supposed to last forever. They remind me of the granite blocks, both in size and in structure of those found upon the streets of Pompeii ages after that city was destroyed.

Automobiles are very numerous here, mostly of French manufacture, and are very noisy.

It looks like a blending of ages when oxcarts and automobiles are seen upon the same street at the same time. Business is conducted very deliberately. You can't hurry anybody. I waited some 8 or 10 minutes before I could cash a certificate at the bank. Checks are not used in payment of debts as with us but the creditor receives his money or pay direct from the man or firm who owes him.

A visit to the snake farm is always full of interest to strangers. It is located beyond the city limits upon a beautiful promontory overlooking the city. It is a government institution of world wide reputation, and is under the management of Dr. Vital do Brazil, who has discovered an antitoxine from the virus of poisonous snakes which a certain antidote to the bites of three reptiles. Several hundred snakes are constantly on hand from which the working force of the institution are busy making serums and antitoxines. All kinds of serums are prepared here and are used extensively all over the country.

People of the United States have not yet realized the importance and growth of this South American trade. Statistics show that the United States receives 41 per cent. of its exports, but exports to that country only 12 per cent., while England receives only 19 per cent., but her exports amount to 49 per cent. Germany receives 16 per cent. and sends out 25 per cent. of this South American trade—all of which shows how much we are behind other nations in exportation of our products.

English capital here is 20 times that of the United States, the reasons for which I must not take time to discuss,—but we do lead all competitors in engineering, motor and electric works and in all high class mechanical skill.

What this country most needs is schools. Primary education is not universal. Children are not compelled to attend school even where they have the opportunity. The illiterate people are the poor, and will continue to be until they are better educated, so they can think and act for themselves.

Yours respectfully,

P. C. Thompson.

WITH THE SICK.

Alfred Wharton of 808 South Church street is quite ill with pneumonia.

E. Carlton of Chandlerville underwent an operation for appendicitis at Passavant hospital. He was accompanied here by his brother and Dr. H. B. Boone.

Mrs. William Mason of South Main street who has been confined by illness to her home is again able to be about.

Miss Mabel Bacon of North Main street was able Monday to be removed to her home from Our Savior's hospital where she has been for the past two months.

WON BY GOOD SCORE.

At a game Monday afternoon at the Jacksonville State hospital grounds the South Side Sluggers won over the 4th ward colored team by a score of 14 to 4. The batteries for the Sluggers were Sandberg and Ferguson.

CHRISTIAN CHURCH CONVENTION.

Gainesville, Texas, May 11.—J. Campbell White of New York, Dr. S. C. Medbury of Des Moines, R. A. Long of Kansas City and several other religious workers of national prominence are on the program for addresses at the state convention of the Christian churches in Texas, which was opened her today with a large attendance of delegates. The proceedings of the convention will continue until the end of the week.

COLONEL MAYO DIES.

New York, May 11.—Col. John C. Calhoun Mayo, Democratic national committeeman from Kentucky died here this afternoon at a hotel where he had been ill since April 25.

Col. Mayo was brought here for further treatment after blood transfusion at Cincinnati had failed.

THE RAINFALL.

A rainfall of .97 inches was recorded Monday by George H. Hall, weather observer at Alexander.

A "Helping Hand" Extended to the Middle Aged Woman

THERE comes a time in every woman's life when her organism undergoes an important change. This is a critical period. It is a time when a woman needs her full health and strength. For your own sake you should anticipate this turning point.

Dr. Pierce's Favorite Prescription

has been recommended for over forty years as a tonic for women who are about to experience "the turn of life." It is helpful in the equalization of the circulation of the blood and in regulating the action of the bowels. Nervousness and low spirits disappear. Happiness and contentment take their place.
